EXPERIENCE

Improve Your Tomorrow —*UI/Graphic Designer*

<https://www.improveyourtomorrow.org/>

<https://www.powerofusiyt.org/>

JAN 2021 - APR 2021

- Design their graphics needs for their social, email and website as well as their UI in their website.
- Created and design their annual report
<https://www.improveyourtomorrow.org/impact-report>

Washington Real Estate Media —*UI Developer*

<https://wremedia.com/>

DEC 2020

- Develop or build their website to their new redesign using WordPress and Elementor Page Builder. Also contributed some UI designs

Zangle —*UI Designer/Developer*

<https://zangleofficial.com/products/spotify-custom-glass-plate>

SEP 2020-October

- Updated their existing product page with integration with Spotify API as well as custom upload of album cover.
- When users search a particular song, the API calls an object from Spotify. When the desired song is in view it can be clicked and added as a merchandise for custom printable items.

Barhead Solutions — *Technical Consultant/Front End Developer*

JANUARY 6, 2020 - SEP 25, 2020

- Uses Dynamics 365 platform with XRM Web API to query or update data. Used JavaScript, jQuery, Liquid and CSS3 for customizing PowerApps Portal for the Front-End.
- Notable project was building the PowerApps Portal of BMD Group Australia. Also build a custom UI for Price Grid Reference for JBS Australia inside Dynamics 365

Accenture, Eastwood Libis, QC — *Application Development Analyst (Web Developer)*

SEPTEMBER 2017 - JANUARY 2019

- Worked as a Web Developer for Sitecore Experience Platform, an ASP.Net CMS Framework.
- Coded few lines of code that uses Razor Syntax in C# with ASP.net MVC Design pattern.
- Heavily used Sass/CSS3 as the module/components assigned to me was more of a front-end development.
- Coded just a few lines of code in JavaScript for the Adobe Launch Analytics Revamp design for www.accenture.com

Accenture, Cybergate 3, Mandaluyong—Application Support Analyst (a.ka. now as DevOps)

November 2014 - September 2017

- Worked as POC for Sitecore 8.2 Experience Platform for upgrade. This also includes heavy fixing of server environment issues that are caused by the upgrade.
- Worked as a Dev Support such as automation of Code Deployment.
- Handling Server Upgrades, maintaining the UAT, Staging and Production Environment of www.accenture.com
- Troubleshooting Website, Downtime and Performance issues, working alongside Project's Software Architects.
